

PHYDADES

www.phydades.info

OBJECTIVES

To create a new European database "**BIODAT**" for biomass fuels and ashes (www.biodat.eu). The information is collected from partners and the existing database "Phyllis" (www.phyllis.nl). The database will contain chemical and physical properties of solid biofuels and their ashes determined according to European Standard Methods.

To provide education in the use of **STANDARDISED ANALYSIS METHODS**, for the European member states.

ACTIONS

4 WORKSHOPS (Estonia, Poland, Spain, Romania) will disseminate the information on database and advantages of using standardised methods to the target audience.

ON-JOB TRAINING IN LABORATORIES

CONSORTIUM

- ECN - Energy Research Centre of the Netherlands (**Coordinator**)
- VTT - Technical Research Centre of Finland
- SLU - Swedish University of Agricultural Sciences, Sweden
- EC BREC - Institute for Fuels and Renewable Energy, Poland
- TUT - Tallinn University of Technology, Estonia
- AICIA - Association of Research and Industrial Cooperation of Andalusia, Spain
- ETA-Florence Renewable Energies, Italy
- OFI - Austrian Research Institute for Chemistry and Technology, Austria
- ENAS Oy - Finland
