

# PHYDADES

## On-job training

**PHYDADES**

Intelligent Energy

Europe

# Purpose of On-job training

- Reaching important solid biofuel markets of **the Baltic States, Eastern and Southern Europe**
- In order to comply with **CEN/TS 14961 – Fuel specifications and classes** (being upgraded to EN standard) analysis with **standardised methods** is required
- PHYDADES offers **on-job training** to laboratories in target areas that are involved in solid biofuel analysis
- Learning by doing in established solid biofuel analysis laboratories in Finland, Sweden, Austria and Spain

# Details of On-job training

- Laboratories can send a worker to participate in training for **2–4 weeks**
- Training laboratories and schedule (exact dates after selection):
  - **OFI** in Vienna, **Austria**: February to May 2009 (languages: German, Polish, English)
  - **BELAB** in Norrköping, **Sweden**: February to May 2009 (languages: English, Swedish)
  - **AICIA** in Seville, **Spain**: 19–30 January 2009 (languages: English, Spanish)
- The training is **free of charge**; travel and accommodation is paid by the employer/company of the person to be trained
- More information in the **On-job training flyer** and the **PHYDADES website** ([www.phydades.info](http://www.phydades.info))
- Last submission date for applications:  
**15 December 2008**
